Leonardo Info

RINA tools for fleet management

Shipowners and managers can access updated information relevant to their classed ships through the RINA site <https://www.leonardoinfo.com>.

By means of personal entry codes, users have secure access to a wide range of facilities and services.

Facilities and services for users

- ship class details
- main ship general data
- information on certificates and periodical survey status including continuous surveys, if any
- overall schedule of deadlines concerning certificates and surveys
- recommendations and memoranda
- survey status, summarizing all the above information, updated to the last survey on board
- survey endorsement sheet, summarizing all operations carried out during the last survey on board
- ship classification history enabling all operations carried out in the past to be reviewed
- survey checklists
- narrative survey report
- copies of certificates

RINA tools for fleet management:

a package of RINA software aimed at facilitating fleet management by improving the exchange of information between RINA and shipowner.

Survey Request Form

leonardoinfo.com also makes it possible to fill in a specific form, completed only with date and place of the requested survey, and have it automatically sent by the system to all involved parties.

EASY: E-mail Alert System

Benefits

- Notification of the survey due dates including user defined numbers of days' notice, messages and recipients
- Notification of any new survey status publication every time it has been updated by RINA
- Effective planning of RINA interventions
- Timely information on entry into force of new class and statutory requirements for the specific vessel

y o u m i g h t f o r g e t , w e w o n ' t

EASY is an e-mail messaging system for the smooth planning of class and statutory surveys; **it is aimed at assisting shipowners and ship managers in the monitoring of due dates of all RINA interventions** and maintaining the validity of class and statutory certificates of a RINA classed vessel.

EASY e-mail alert system is based on the survey status recorded in Leonardo Info (<https://www.leonardoinfo.com>).

EASY notifies one or more recipients via e-mail, in accordance with the advance notice agreed, the due dates for each ship relevant to: class and statutory surveys or recommendations, continuous hull and machinery items, foam plant (analysis and renewal).

A message is also sent, according to

the advance notice agreed, in the following cases: entry in the survey window; entry into force of new rules. Lastly, every time there is an update, notification is given of publication of a new survey status in Leonardo INFO.

RINA: 150 years of service

RINA is one of the oldest classification societies and certification companies in the world. Established in Genoa in 1861 to serve the marine industry, today it spans the globe as a multinational and multi-faceted company, sharing its knowledge and experience through a wide range of services which help industries and the community to improve their businesses and quality of life. RINA's services cover the environment, energy, transportation, logistics, safety, quality and social responsibility.
